

I am writing to let you know that I listen to K-Love radio station on 96.5 and 88.7 in Medford, Oregon. I absolutely love listening to this station and support them financially because they are quality family programing that is uplifting, fun and consistently positive. I believe their programing is encouraging and helping thousands of people to live better lives and to find hope and cheer in the midst of their daily struggles.

I have been personally helped numerous times by turning to K-Love and feel incredibly changed by the daily impact this positive listening experience has had on my heart. Our whole family listens to the same programing at the same time even though we live in different cities (really cool!).

I hope and pray you will support our desire and need to keep FM transmitters and not replace them with LPFM broadcasting. I know that I personally would feel a GREAT LOSS and that many others would also be deprived of great joy and hope they find in listening to this incredibly wonderful, positive and uninterrupted worship music. Thank you.

Sincerely yours, Lynn A. Hall
